

The following inventory of Polish Army in France recruiting volumes indicates the type of form to be found within that volume as well as the principal locality from which they came. Within the numbering scheme, volumes of Form A are mixed in with volumes of Form C. The numbering scheme does not show a consistent pattern based on locality either. Some of the volumes are listed as missing. These volumes are probably what are now numbered 450-454. Volumes 450-454 were not marked with a number, so numbers were added beyond the normal sequence which ends at 444.

There are fewer volumes of Form C accounted for than volumes of Form A, suggesting that there are more missing volumes than this numbered inventory indicates. Most notably, Form C volumes for Chicago have not been found. Volumes of Form B exist but were neither numbered nor indexed. Hence, they are not included as part of this inventory.
